Letter of Endorsement

Houston, October 20, 2009

VA-PAC (Vietnamese American Political Action Committee) has taken active steps to officially endorse Mr. Gene Locke in his quest for the Office of Mayor of the City of Houston in the upcoming November election.

We arrived at the decision, with insightful deliberation based on a set of criteria, in which Mr. Locke was determined to be the most qualified candidate. His vast experience, total dedication to public service, coupled with a compelling life story of self-dependency would certainly turn his candidacy into the most attractive and competitive aspect in this election.

The City of Houston is internationally recognized as one of the most diverse and vibrant cities in the United States. This well-deserved recognition should be credited to the city's most invaluable treasure: its human resources and their aspirations to make Houston a better place.

It is our unshakable conviction that Mr. Locke will devote all his energy, not only to realize that collective dreams of ours, but also to bring forth all the potential in our beloved city. The path to that brighter future will indeed be less arduous under his leadership.

We should be looking forward to the better days ahead with Mr. Locke as our Mayor.
